SUMMARY
Dedicated and detail-oriented Software Engineer with extensive experience in quality control, teaching assistance, and course creation. Skilled in various programming languages, frameworks, and tools.

EDUCATION
Computer Science Master's Degree Student 2024-Present
Dual Bachelor from Arab Academy for Science and Technology, & Northampton University
Computer Science 2019 – 2023

- My graduation project was recognized as one of the best projects among computer colleges in Alexandria.

EXPERIENCE
Arabic Localizer Alexandria
Software Tester August 2024 – Current

- Specializing in manual and automation testing, I design and execute test cases, report bugs, and create automated scripts to ensure high-quality software delivery.

Egypt Japanese University of Science and technology Borg ElArab
Teacher Assistant *October 2023* – August 2024

- Provided comprehensive support in teaching various courses, including blockchain, cryptography, embedded systems, human-computer interaction, computer network, compiler design, and software modeling
- This involved conducting labs, tutorials, and assisting in overall course delivery to ensure students grasped key concepts effectively.

Educational Company Innova Stem Education Alexandria
Quality Control *August* 2023 – July 2024

- Ensuring educational materials align with industry standards, monitoring committee heads, and participating in the selection process for new instructors to enhance the learning experience for students.

Instructor & Courses Creator *December* 2019 – May 2024

- I have successfully delivered a wide range courses, including Scratch, Python, Web development and robotics.

ACCOMPLISHMENTS
- **Project 1:** Graduation Project - Blockchain-based NFT and IoT Pharmaceutical Tracking
- **Project 2:** Secured Home Embedded Systems Project
- **Project 3:** Sentiment Classification of Tweets using RNN and LSTM (Python)

SKILLS
- Programming Languages: Python, Java, C, JavaScript, Solidity
- Database: MySQL, MongoDB
- Frameworks: React, Ethereum
- Tools: Selenium, Trello, Proteus, Arduino, SolidWorks, Microchip Studio, Adobe Photoshop, Adobe illustrator, Adobe Premiere Pro, Unity, Cisco Packet tracer, Ganache, Truffle, Geth

CERTIFICATES
- Embedded Systems: AMIT Learning 2024
- Arduino and PCB Diploma: Agency for Public Mobilization and Statistics 2022
- Developing Web Application using Python: Information Technology Institute (ITI) 2022
- Implementing and Administering Cisco Solution (CCNA): New Horizons 2021
- CompTIA Network+: New Horizons 2021
- Database Connectivity Track SE Fundamentals of MySQL: New Horizons 2021
- Java SE Programming: New Horizons 2020
- Capstone Project: Faculty of Medicine, Alexandria - Faculty of Science, Alexandria 2018
- Building Your Robot: Arab Academy for Science and Technology 2017
- Super Designer: Arab Academy for Science and Technology 2016
- Web Designer: Arab Academy for Science and Technology 2015
